Ergotron® MWS 102™

A quality flat panel monitor cart solution

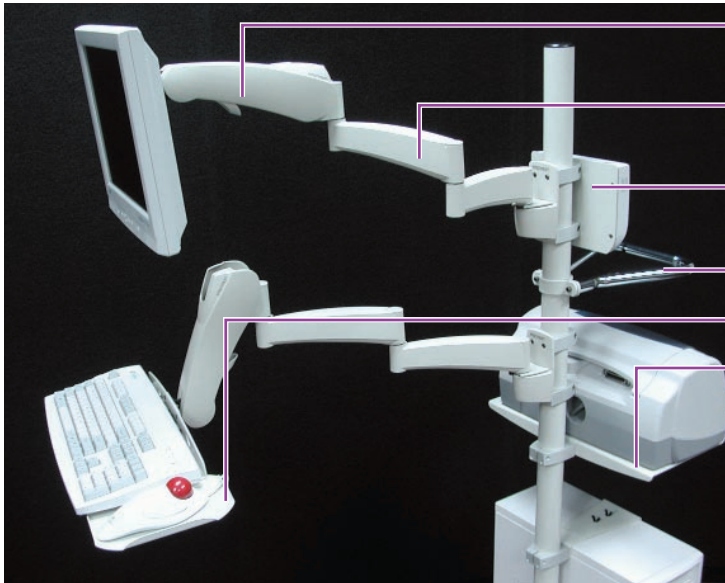

This mobile computer cart was specifically designed to accommodate patients who are temporarily or permanently confined to beds. The cart an ergonomically correct workstation to users who are in an upright, semi-reclined or fully-reclined position. Our patented Adjustable Rotating Mounting Solutions (ARMS) allow users to swing, lift, tilt and turn a flat panel monitor and keyboard into an infinite number of positions for convenient computer access.

## Features

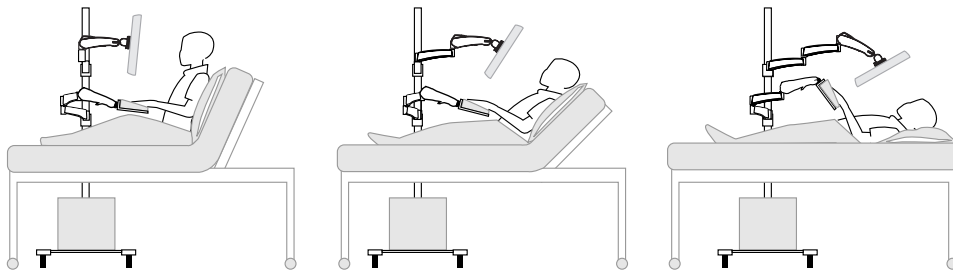

- Provides computer access to users confined to beds or chairs
- Easily adjusts to users who are in an upright, semi-reclined or fully reclined position
- Keyboard and monitor Arms provide complete ergonomic adjustability
- Organize an entire computer system into a self-contained modular workstation on wheels
- Low-profile base fits easily under a standard hospital bed
- Integrated cable management system neatly organizes & routes cables
- Locking rear Casters keep cart in desired position
- Flat panel monitor and laptop compatible
- Weighted base and ARMS with rotation control provide maximum stability
- Arm is Video Electronics Standards Association (VESA®) FPMPMI™ compliant for 75 mm or 100 mm Mounting Interface Standard
- Arms fold back for moving or storage purposes
